LIB. OF CONGRESS

PAGE 7 OF SEC. 15.7c/SUN

Western Model 776. Wall-mounted stainless steel hand-capped drinking fountain with matching grille. Classic sculptured fountains operated by contoured push bar. Remote cooling unit provides refrigerated water for both drinking fountains.

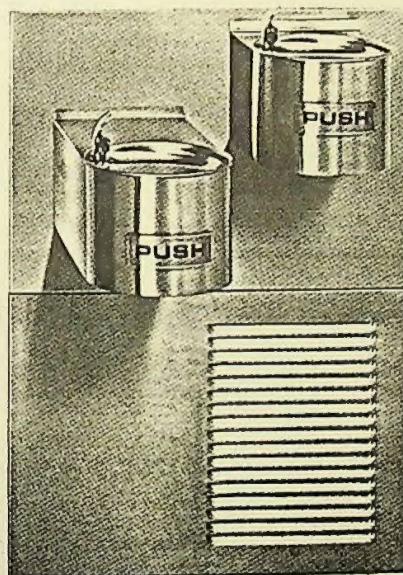

Western Model 4343-WC-P. Wall-mounted stainless steel dual height drinking fountain. Both fountains incorporate contoured push bar for easy operation by all users. Lower fountain has extended stainless steel skirt.

SUNROC CORPORATION  
AND WESTERN DRINKING  
FOUNTAINS

Western Model 43-WC-P. Wall-mounted stainless steel handicapped drinking fountain with extended steel skirt and contoured push bar for easy operation by all users. Also available with dual lever handles.

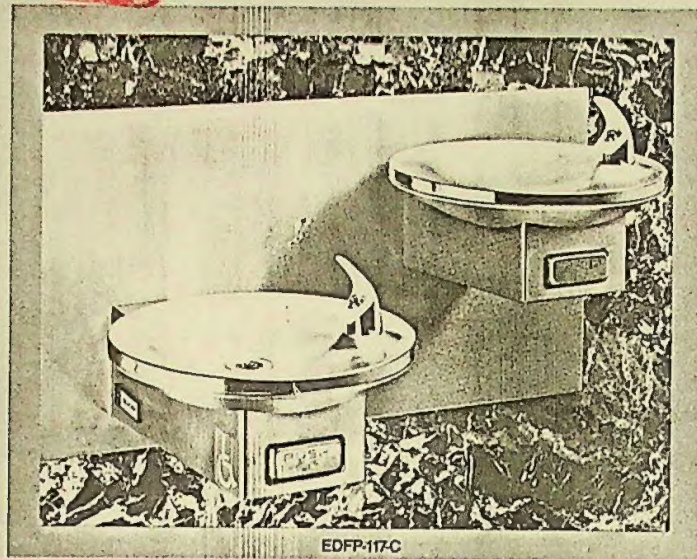

Western Model 4343-WCRC-P. Wall-mounted stainless steel dual height drinking fountain with matching grille and contoured push bar on both fountains. Remote cooling unit delivers refrigerated water for the general public as well as the handicapped.

D7/304

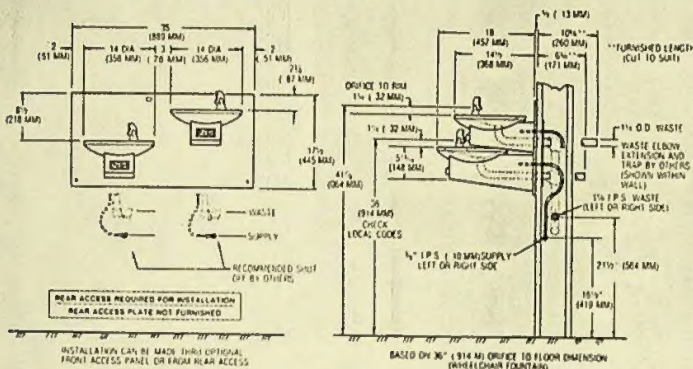

## TWO LEVEL WHEELCHAIR MODEL DRINKING FOUNTAIN

Fully exposed dual height drinking fountains are constructed of stainless steel and polished to an LK-6K satin finish with a hi-shine outer edge. Stainless steel support arms incorporate the recessed basins. Dual height fountains are projected for ease of use.

**SwirlFlo Facts.** Fountains have contoured basins to minimize splashing and Flexi-Guard™ safety bubblers. Patented in-line flow regulators provide a constant water stream from 20-100 psi. All water lines are copper, and stainless steel bottom cover plate is vandal-resistant. Optional access panel is available for through-the-wall installation.

**Installation.** Dual fountains are mounted on a 17-1/2" x 35" stainless steel wall plate polished to an LK-6K satin finish.

The EDPF-117-C conforms to ANSI standards and The Uniform Federal Accessibility Standards by providing accessibility and use for the physically handicapped. Meets all known sanitary codes.

## COUNTERTOP MODEL DRINKING FOUNTAIN

Countertop mounted fountain is ideal for use with a marble surface or other attractive materials. It fits easily into any setting.

**SwirlFlo Facts.** Fountain has a contoured basin to minimize splashing. Chrome plated brass push-button bubbler has an in-line flow regulator that provides a constant stream from 20-100 psi.

**Installation.** Fountain mounts in countertop. Bracket locks basin in position.

## REMOTE CHILLERS CONVERT FOUNTAINS TO COOLERS.

Water chillers are compact, highly efficient, and designed for use with any SwirlFlo drinking fountain. Connected to the SwirlFlo fountain, they convert a fountain to a water cooler and can be located in a service area, serving from one to three remote outlets. The heavy steel cabinet is double baked with paint, and the chiller contains a hermetically sealed compressor. See catalog DFC-7 for details.

handicapped users (as well as the general public) will appreciate the convenience of electronic controls. The secret is our exclusive membrane switch design which activates a solid-state, solenoid valve control circuit.

No strenuous push, pull or punch pressure is required. Just a light touch of the finger, forearm, shoulder, hip or knee and refreshing cold water starts to run.

Wheelchair users won't bump feet, legs, hands or arms against the cabinet because the arms of the wheelchair fit easily under the leading edge of the splash basin. And the slender cabinet is angled toward the wall to make even more room for the user's legs.

The visually impaired will see the water stream better because there is no backplash to cause mirror distortion.

Furthermore, there are no exposed screws or sharp edges to catch clothing or cut fingers.

Model OEP8WM-AE is the ultimate in automatic cooler convenience. Just tap one of the four membrane switch touch pads lightly. Water runs automatically for 7 seconds; then stops—automatically. No continuous pressing. Just the one light touch by any part of the

body and the water flow begins.

**Model OEP8WM-EQ** is activated by light pressure on any one of its four membrane switch touch pads. Water continues to flow as long as the pressure on the pad is maintained.

Model OEP8WM-E has two touch pads on the front. Water flows from the bubbler as long as pressure is maintained on one of the pads.

Model OEP8WM is activated with a simple twist of the Dial-A-Drink valve, operated mechanically.

Models satisfy Public Law 90-480 and A.N.S.I. Standard A117.1 (1980) that relate to the provision of barrier-free facilities for the physically handicapped.

## Colors

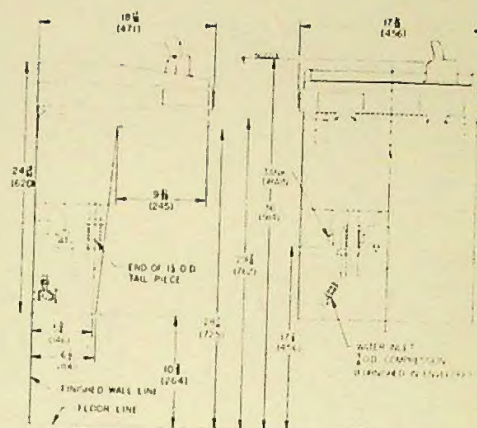

Standard cabinet finish is Sandstone vinyl-on-steel. Vinyl-on-steel and baked enamel finishes optional at no extra cost; Regency Bronze and stainless steel, extra.

## Installation

Complete installation instructions and wall mounting bracket shipped with each unit.

## Accessories

Glass fillers: Factory installed. Push down (A550R), push back (A525R), push button (A500R).

## Elkay Has Total Faucet Line

With the addition of a complete single-lever faucet line, **Elkay Mfg. Co.**, now is a full-line faucet supplier for kitchen, bar, lavatory, and bath. New post- and deck-mount kitchen single-levers are available in a variety of styles and meet a variety of budget considerations. Deluxe models feature 9½" contoured tubular swing spouts with swivel aerators. (Model shown: LK-4361-F) Single-lever lavatory faucets are available with chrome or Crystalac handles. All lavatory faucets have coordinating tub/shower valves. Elkay has also added a single-lever to its popular Hi-Arc™ line and the company has expanded its two-handle faucet line as well. Highlights include Hi-Arc™ faucets with metal wing handles and a new Hi-Arc™ lavatory faucet with contemporary spout. **Circle No. 026.**

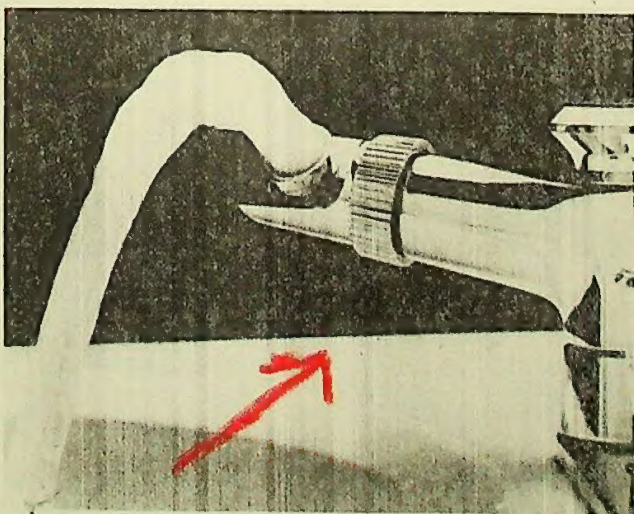

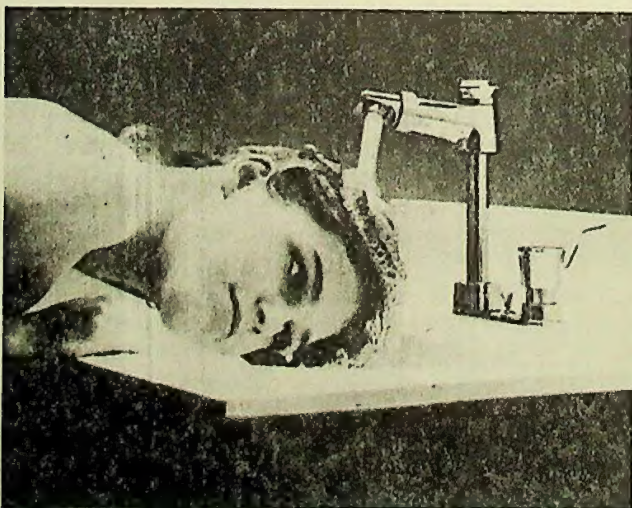

## New Kitchen, Bar Sink Line

'Connoisseur,' a new line of kitchen and bar sinks was introduced by **American-Standard** at the NAHB Expo. New line includes single, double and triple bowl sinks, plus such new colors as Autumn Sunset, Chianti, Ebony, Sterling Silver, Dresden Blue, Americana Brown, Saffron Yellow. Unit at left measures 42 by 21 in., with two side bowls and a small center bowl. Cutting board optional. **Circle No. 033.**

## "Riser" For The Lavatory

Innovative faucet has 2-position spout that rises to over 7 inches above the deck for washing hair, filling containers and other household tasks. The aerator can be swiveled to produce the effect of a drinking fountain eliminating the need for cups and glasses in the bath-

room. The spout also swings back and forth reaching all areas of the sink. The faucet is lever operated. Mounts on standard lavatory fixtures on 4-inch centers. Triple-chrome plated. Introduced by **Moen**, a div. of Stanadyne. **Circle No. 024.**

## ELECTRIC WATER COOLERS

### Model HWSR-8 & 12

Simulated recessed wall-hung water cooler available in a wide variety of cabinet finishes including: Tan vinyl standard, Walnut-Grained vinyl or Gray vinyl at no extra cost; at additional cost, stainless steel or stainless steel with Sienna Bronze™ finish. See DIMENSIONAL DRAWING, page 4.

### Model HWFR-8 & 15

Full-recessed water cooler in stainless steel with matching grille. The slender design, with no protrusions from wall, makes this unit particularly adaptable for use in corridors. Mounting box included for easy-in-the-wall installation. See DIMENSIONAL DRAWING, page 4.

### Model HWS-4,\* 8 & 13

Most compact wall-mounted water cooler available. Cabinet with Tan vinyl is standard; available in vinyl finishes of Walnut-Grain or Gray at no additional cost. Satin brushed stainless steel at extra cost; complete unit in Sienna Bronze™ stainless steel at extra cost. See DIMENSIONAL DRAWING, page 4.

\*Available only in Gray hammertone finish.

### Model HWR-8 & 12

Compact, semi-recessed water cooler with push-button-operated bubbler. Refrigeration unit is air cooled for maximum economy. Steel mounting frame is furnished. Tan vinyl cabinet standard; available in the following at no extra cost: Walnut-Grained vinyl or Gray vinyl. Satin brushed stainless steel cabinet at extra cost; complete unit in Sienna Bronze™ stainless steel finish at extra cost. See DIMENSIONAL DRAWING, page 4.

See SELECTION CHART on page 5 for capacities and detailed information.

Mail room date  
July 10, 1978

15.7f/Ha

**Model HWC-8** (New Push-Bar Model, not shown)

Dual purpose water cooler for use by the general public and persons in wheel chairs. Bubbler operates by soft-touch, self-closing, vandal-resistant push bar. Bar is activated by pushing either side or middle with a very light touch. Unit helps satisfy Public Law 90-480 requiring facilities for use by the physically handicapped in buildings constructed, leased or financed by the Federal Government. Stainless steel cabinet (shown) at extra cost. See DIMENSIONAL DRAWING, page 4.

**Model HWCD-8 & 8GF**

Single extended drinking fountain to accommodate persons in wheelchairs, and convenient for all people to use. Fountain, back-plate and grille are stainless steel. Fountain has self-closing lever handles on both sides. Unit satisfies Public Law 90-480. Model HWCD-8GF with push-down, platform-type glassfiller faucet. Installation is simplified with mounting can. See DIMENSIONAL DRAWING, page 4.

**Model HWCL-10**

Two fountains, one lowered and extended to accommodate persons in wheelchairs and the other at standard height. Lowered fountain has self-closing lever handles on both sides. Fountains, backplate and grille are stainless steel. Units satisfy Public Law 90-480 requiring facilities suitable for use by the physically handicapped in buildings constructed, leased or financed by the Federal Government. See DIMENSIONAL DRAWING, page 4.

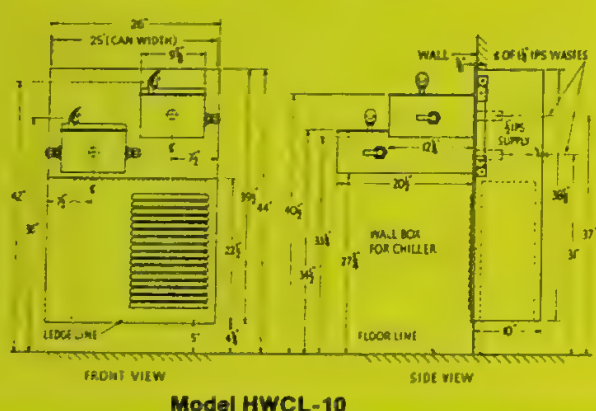

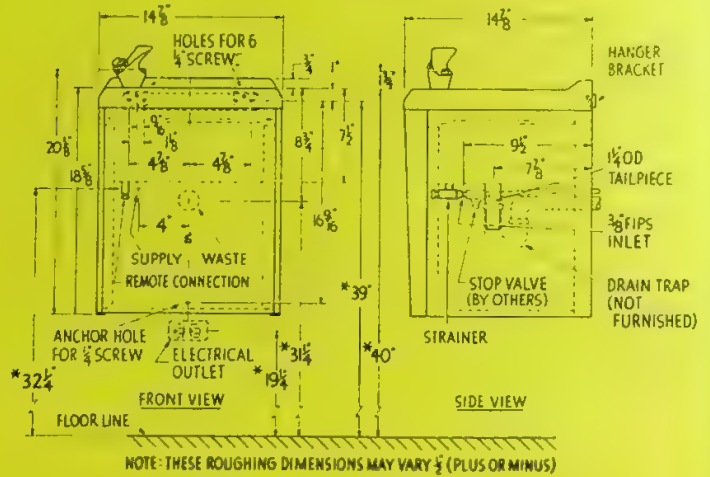

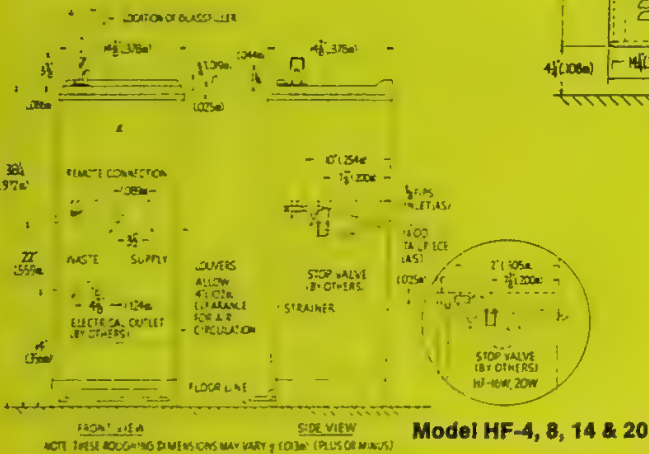

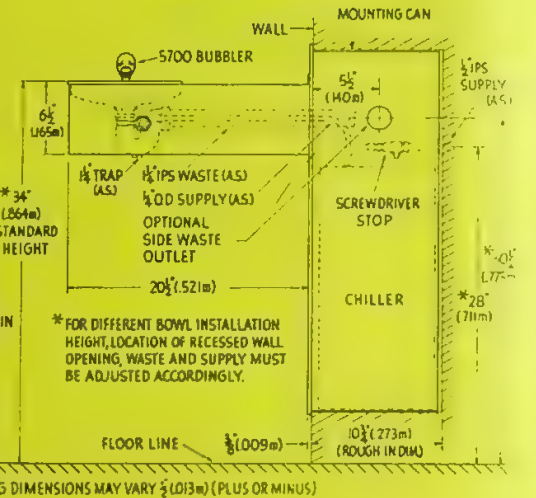

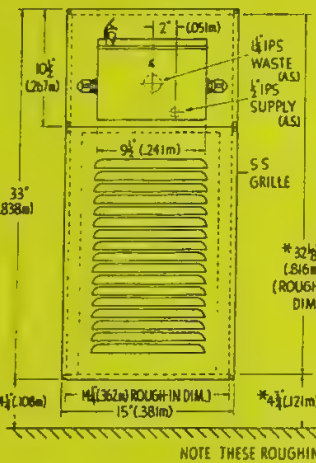

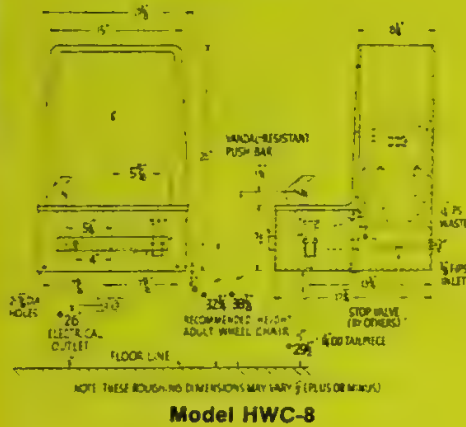

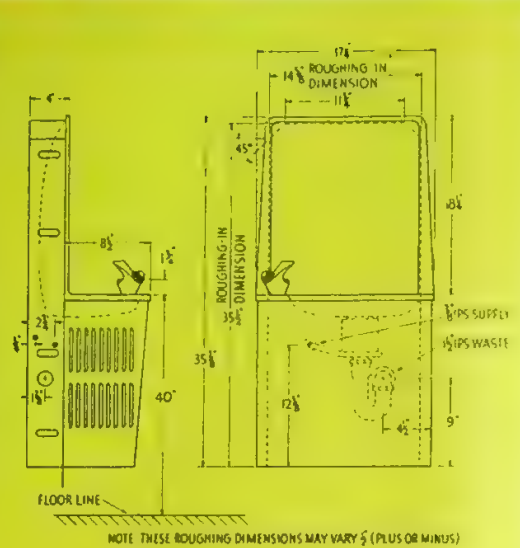

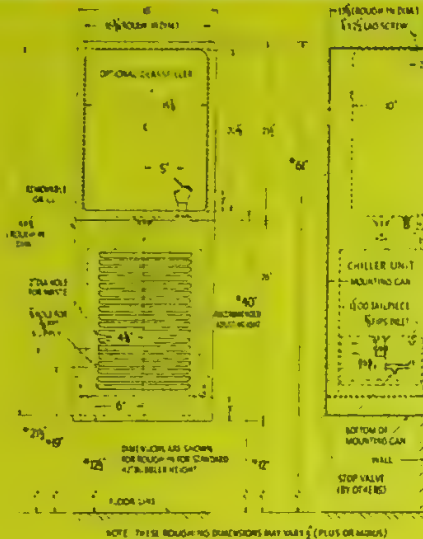

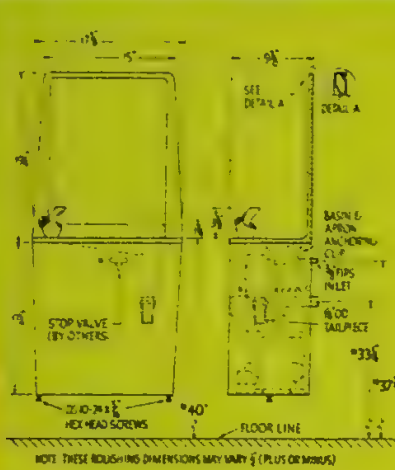

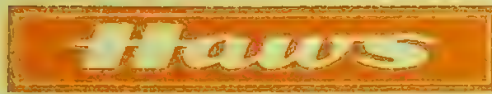

**Model HF-4, 8, 14 & 20**

Slim, compact flush-to-wall floor-mounted water coolers extend 14 $\frac{3}{8}$ " outward. Water, drain and electrical connections through back, completely out of sight. Gray hammer-tone enamel finish cabinet with Charcoal vinyl removable front panel is standard on all models except HF-4. At no extra cost, complete vinyl cabinet, with choice of 5 colors. See DIMENSIONAL DRAWING, page 4.

# WATER COOLER INSTALLATION DETAILS

\*FOR A LOWER BASIN RIM INSTALLATION, THE HEIGHT DIMENSION OF THE HANGER BRACKET, WATER INLET, DRAIN AND ELECTRICAL SUPPLY MUST BE REDUCED THE SAME DISTANCE AS THE BASIN RIM. PLUMBING FITTINGS AND ELECTRICAL RECEPTACLE SHOWN WITH BROKEN LINES ARE NOT SUPPLIED WITH COOLER.

#### Model 1002

Beautifully sculptured drinking fountain with receptor, outer shell and bracket in stainless steel with #7 highly polished finish. Unit features handsome bubbler, lever handle valve, and integral waste strainer with patented\* vent for quick draining. Receptor, outer shell and bracket in stainless steel with #4 satin finish, Model 1005 (shown on cover). See DIMENSIONAL DRAWING, page 9.

\*Pat. 3,568,928

#### Model 1045

New, precast stone, wall-mounted drinking fountain for wheelchair users as well as general public. Polished smooth finish, shown; available with exposed aggregate finish, Model 1047. Other colors available at no extra cost. Fountain has stainless steel receptor, dual lever handle valves, vandal-resistant bottom plate, and special mounting bracket for secure installation. See DIMENSIONAL DRAWING, page 9.

#### Model 1115-BP

This model features the popular HAWS sculptured drinking fountain receptor, an extended mounting bracket for wheelchair access, and a new accented back-plate that adds a distinct design to the installation. Unit is stainless steel #4 finish. Special mounting plate provided for easy installation. See DIMENSIONAL DRAWING, page 10.

These units are adaptable for installation with remote cooling unit.

#### Model 1407

Exceptionally vandal-resistant wall-hung drinking fountain of cast aluminum with hard anodized finish. Unit features vandal-resistant heavy-duty bubblers, push-button valves,\*\* strainer and bottom plate. Available with freeze-proof valve system. See DIMENSIONAL DRAWING, page 10.

\*\*Pat. 3,580,542

## Model 2205

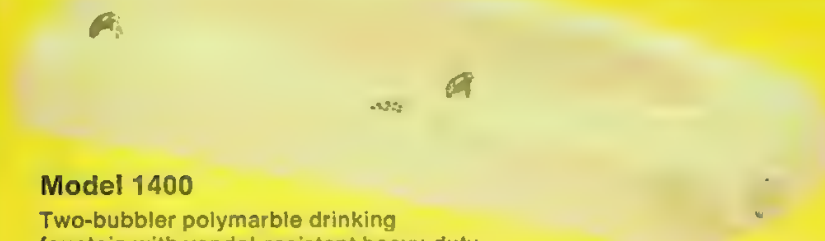

Newly designed, semi-recessed polymarble drinking fountain with vandal-resistant, chrome plated heavy-duty bubbler, flush-mounted push-button valve\*\*, waste strainer and bottom plate. Cuspidor unit, Model 2207; fountain/cuspidor combination, Model 2208. Mounting cans available. See DIMENSIONAL DRAWING, page 10.

\*\*Pat. 3,580,542

## Model 2510

Full-recessed polymarble drinking fountain with chrome plated recessed vandal-resistant bubbler and waste strainer. Also available as Model 2512 as a cuspidor with flushing spreader and as Model 2513 fountain/cuspidor combination. Freeze-proof valve system available, Model 2510-6521FP. See DIMENSIONAL DRAWING, page 10.

## Model 1400

Two-bubbler polymarble drinking fountain with vandal-resistant heavy-duty bubblers, flush-mounted push-button valves\*\*, bottom plate and waste strainer. Three-bubbler unit, Model 1405. Available in 3 colors at no extra cost. See DIMENSIONAL DRAWING, page 10.

\*\*Pat. 3,580,542

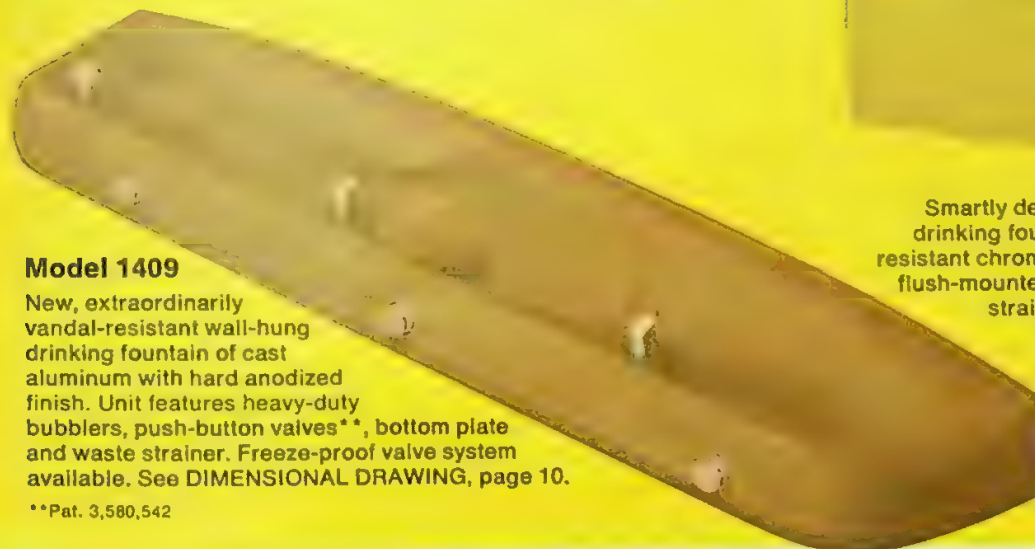

All polymarble models are available in white as standard, or the following colors at no extra cost: Cerulean Blue, Yellow Mist or Tan.

## Model 1205

Smartly designed wall-hung polymarble drinking fountain with high back; vandal-resistant chrome plated heavy-duty bubbler, flush-mounted push-button valve\*\*, waste strainer and bottom plate. Freeze-proof valve system available, Model 1205-6521FP. See DIMENSIONAL DRAWING, page 9.

\*\*Pat. 3,580,542

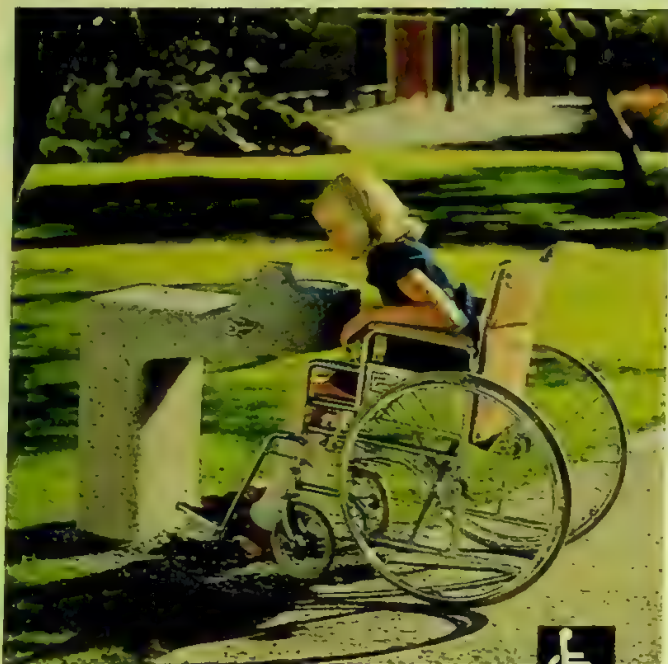

## Model 1409

New, extraordinarily vandal-resistant wall-hung drinking fountain of cast aluminum with hard anodized finish. Unit features heavy-duty bubblers, push-button valves\*\*, bottom plate and waste strainer. Freeze-proof valve system available. See DIMENSIONAL DRAWING, page 10.

\*\*Pat. 3,580,542

## DRINKING FOUNTAINS

**Model 3176**

Vibracast pedestal drinking fountain, for use by wheelchair users and general public, has natural color exposed aggregate finish; light sandblast finish, Model 3174. Other colors available at extra cost. Two lever handle valves for left-hand or right-hand operation. Stainless steel receptor, bubbler and bottom plate are vandal resistant. See DIMENSIONAL DRAWING, page 10.

**Model 3376\*\***

Outdoor pedestal drinking fountain designed for use by the general public and persons in wheelchairs. Dark bronze toned fountain has two lever handle valves for left- or right-hand operation and integral receptor with patented\* vent for quick drainage. See DIMENSIONAL DRAWING, page 9.

\*Pat. 3,568,928

\*\*Design Pat. D-239, 284

**Model 3030**

Pedestal drinking fountain in vibracast concrete available in light sandblast or Model 3040 in exposed aggregate finish, with smartly sculptured receptor in #4 satin finish stainless steel. Vandal-resistant, chrome plated, heavy-duty bubbler. Available with matching concrete step, Model 3032, 3042. See DIMENSIONAL DRAWING, page 11.

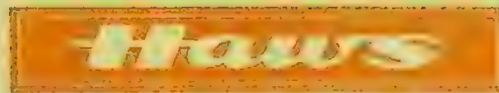

**Model 3060†**

Circular, vibracast reinforced concrete pedestal drinking fountain in natural color with exposed aggregate finish; light sandblast finish, Model 3050. Vandal-resistant features include bubbler surrounded by precast stone, and flush-mounted anchored stainless steel receptor. A matching concrete step and a sand trap are available. See DIMENSIONAL DRAWING, page 11.

†Design Pat. D 223,781

Mail room date  
July 10, 1978

15.7f/Ha

New enclosed hose bib assembly, Model 6265, of cast bronze with polished door and frame is now available as an option on Models 3100 and 3120. Special key opens door and operates valve. Key design and flush mounting deter vandalism.

#### Model 3120†

Square vibracast pedestal fountain in natural color with exposed aggregate finish; light sandblast finish, Model 3100. Other colors available at extra cost. Push-button valve, receptor and bubbler are all vandal resistant. A matching concrete step and a sand trap are available. Unit with enclosed hose bib and valve also available. See DIMENSIONAL DRAWING, page 11.

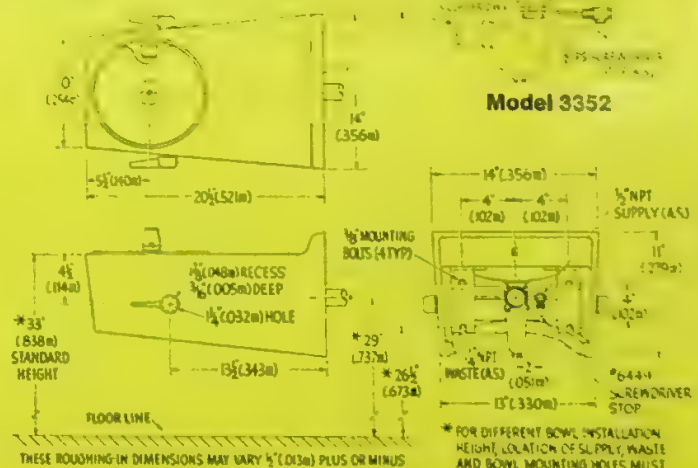

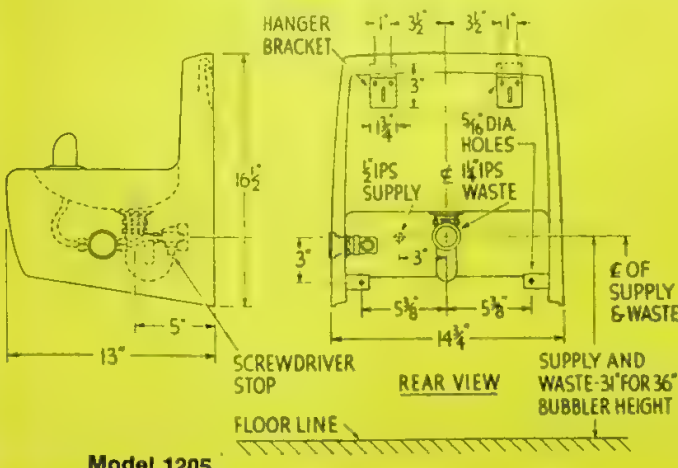

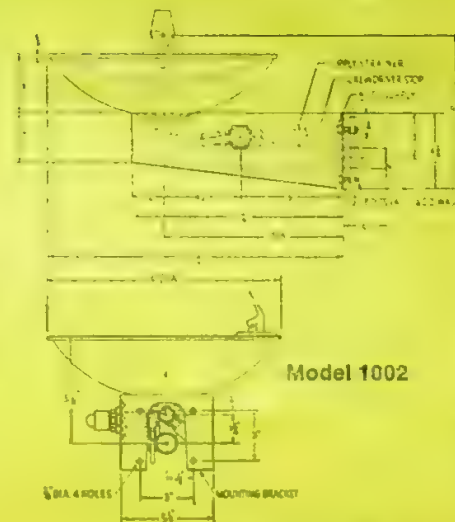

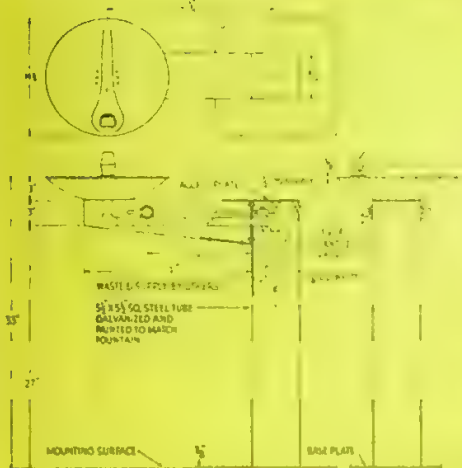

†Design Pat. D 223,782

#### Model 3352 (Shown on front cover)

Thinly sculptured, highly polished pedestal drinking fountain adds beauty to any location. Receptor and pedestal in stainless steel with #7 polished finish. Same unit available with #4 satin finish, Model 3353. Model is also available in bronze, and in hard anodized aluminum. See DIMENSIONAL DRAWING, page 9.

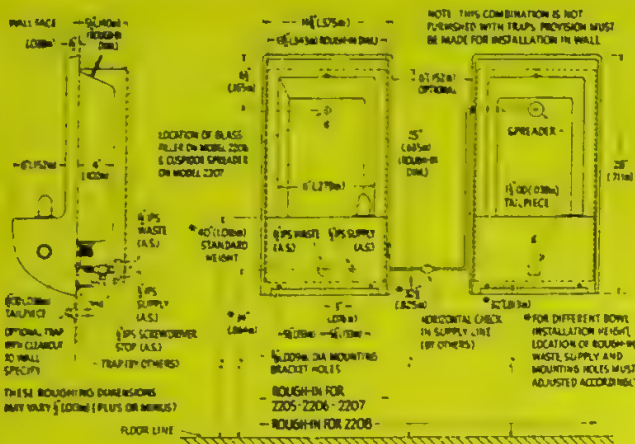

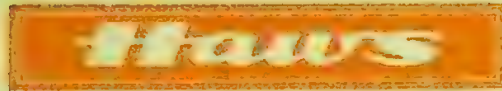

All pedestal fountains are available with hand-operated freeze-proof valve systems.\* \*Pat. 3,739,805

## EMERGENCY EQUIPMENT

**Model 7701-DM**  
Stainless steel push-button-operated eye-wash fountain for laboratory counter-top installation.

**Model 7655**

Fully recessed wall-mounted eye-wash unit in stainless steel cabinet. Pulling down heads 90° activates valve.\*  
\*Pat. 3,709,254

**Model 8169**

Flush-to-ceiling drench shower with pull chain operation.

### HAWS makes a complete line of EMERGENCY DECONTAMINATION EQUIPMENT including:

- Eye-Wash Fountains and Sprays
- Eye/Face-Wash Fountains and Sprays
- Body Sprays
- Drench Showers
- Combination Emergency Stations
- Combination Stations with Drinking Fountain
- Multiple-Nozzle Spray Showers
- Decontamination Units
- Ready-to-install Decontamination Booths
- Laboratory Emergency Center Cabinets, Sinks and Equipment
- Emergency System Accessories

When specified for a particular hazardous application, HAWS emergency equipment will aid in the compliance with OSHA regulations.

**Model 8902**

Eye-face and body spray with patented Feather-Flo® head and 6-foot heavy-duty rubber hose for deck-top installation.  
\*\*Pat. 3,602,436

**Model 8300**

Combination emergency station featuring drench shower and eye-wash fountain with patented Soft-Flo® heads.

tion.

Architectural  
Record

Model 36-DY

# Sculptured in tenzaloy aluminum

MORE than a useful fountain, this new Haws twin bubbler unit, cast in Tenzaloy Aluminum, adds sculptured *outdoor emphasis* to architectural design. Model 36-DY echoes modern lines with bold form and imparts a quiet richness of color with its muted bronze, hard anodized finish. The surface resists scuffs, scratches and corrosion, the tough body wards off dents and nicks. Clients will appreciate Model 36-DY's vandal-proof features: Simple, push-button valves, locked-on bubblers, and under-plate to safeguard trim. For architectural beauty that lasts to the client's satisfaction, specify 36-DY.

CONTINUED FROM PRECEDING PAGE

**Delta-T automatic "tea kettle,"** built into sink or counter, dispenses water at just-under-boiling temperature, clear and fresh-tasting, for instant coffee, cooking, or what you will. Half-gallon tank, self-filling, is automatically serviced by 750-watt heater with pre-set, precise thermostat. Konstant Hot, created by leader in commercial coffee-vending units, has dispensing capacity of 80 cups per hour. \$70, uninstalled.
